PROFILE

Backend-focused **Java Developer** with 3+ years of experience in **Core Banking solutions**. Strong expertise in **Java, Spring Boot, Microservices, Kafka, database migration, and API development**. Proven track record of modernizing legacy systems, designing scalable microservices, and improving payment workflows. Skilled in deploying enterprise applications on **Jenkins/OpenShift/AWS** and ensuring quality with **JUnit & Mockito**. Recognized for **hackathon achievements and mentoring contributions**.

TECHNICAL SKILLS

- Backend Development** : Java, Spring Boot, Microservices, Spring JPA, JDBC, RESTful APIs, SOAP APIs, Apache Kafka
- Database Management** : PostgreSQL, MySQL, Microsoft SQL Server
- Cloud & DevOps** : OpenShift, AWS EC2, Jenkins, Git, Maven, Postman, Swagger UI
- Application Servers** : Apache Tomcat, JBoss/WildFly
- Testing Frameworks** : JUnit, Mockito
- IDEs** : IntelliJ IDEA, Eclipse, VS Code

EXPERIENCE

Senior Software Engineer
LTIMindtree

2022 – Present
Pune, IN

- Working in the **Core Banking domain** with focus on backend and middleware development.
- Delivered **enterprise-scale modernization initiatives**, including DB migration, payments transformation, and API design.
- Improved **deployment efficiency** by automating CI/CD pipelines (Jenkins + OpenShift).
- Partnered with architects, DBAs, and security teams to ensure **platform reliability, scalability, and compliance**.
- Leveraging **GitHub Copilot** to accelerate Spring Boot development through AI-assisted coding.
- Ensuring quality with **JUnit & Mockito**, achieving high code coverage across microservices.
- Mentoring new team members, conducting technical interviews, and leading **knowledge-sharing sessions**.
- Enhanced system performance and availability** by optimizing microservices and database queries, improving customer experience in core banking operations.

PROJECTS (OFFICE)

DB Migration (Ingres to PostgreSQL)

Java, Spring Boot, Confluent Kafka, PostgreSQL, Ingres DB

- Designed and implemented live streaming with **Confluent Kafka** for real-time synchronization.
- Achieved **zero downtime migration** of mission-critical banking databases.
- Reduced licensing costs and improved query performance by 25–30%.

Payments Modernization

Java, Spring Boot, Microservices, PostgreSQL, Scheduler Jobs

- Converted **monolithic payment modules into Spring Boot microservices**.
- Built scheduler-based jobs to automate workflows, reducing transaction processing from minutes to seconds.
- Enhanced scalability and resilience of the payments platform.

Credit Score APIs

Java, Spring Boot, REST APIs

- Developed RESTful APIs to integrate external credit bureau services.
- Enabled faster and more accurate customer credit evaluation for banking workflows.

IBM ITX Tool Replacement

Java, Spring Boot, PostgreSQL, Ingres DB

- Re-engineered legacy ITX-based applications into modern **Java solutions**.
- Reduced reliance on expensive licensed tools and improved maintainability.

SWIFT Message Processing

Java, Spring Boot, SWIFT MT Standards, ISO 20022

- Implemented **SWIFT message formation and parsing modules** using Java for international payments.
- Built utilities to **construct MT messages** and **extract structured fields** from incoming SWIFT messages.
- Ensured compliance with **ISO 20022** standards.

ForecastingAI(Hackathon Project)

Spring Boot, Gemini AI API, REST, PostgreSQL, AWS EC2, Email Service

- Built an AI-powered forecasting tool using **Spring Boot, Gemini AI, and PostgreSQL**, deployed on **AWS EC2**.
- Automated personalized report generation with email notifications.
- Ranked **Top 5 in LTIMindtree Hackathon** for innovation and practical applicability.

CI/CD & Deployment Automation

Jenkins, OpenShift, Git, Maven, JUnit, Mockito

- Automated **build and deployment pipelines** using Jenkins.
- Deployed microservices seamlessly on the **OpenShift platform**.
- Improved delivery efficiency and reduced manual errors.

EDUCATION

National Institute of Technology Karnataka | Bachelor of Technology (CGPA: 7.3)

04-2022

AWARDS AND CERTIFICATIONS

- **Award:** Recognized for improving quality and delivery efficiency at LTIMindtree.
- **Certification:** Flutter Development Bootcamp with Dart (Udemy).
- **Appreciation:** Mentored and interviewed freshers, and ranked Top 5 in LTIMindtree Hackathon for ForecastingAI.
